

**MEMORANDUM**

TO: Taylor Appliances File (site #96-2013)

THRU: Chuck Schwer, Supervisor, SMS *CS*

FROM: Richard Spiese, Project Manager, SMS *RFS*

DATE: August 29, 1997

RE: SMACing of this Site

---

Tim Cropley and I sampled the Taylor and Carriveau MWs on June 30, 1997. The LaRosa Lab analyzed these samples. The results of the analysis from the three MWs on the Taylor property were all ND for the 8020 compounds analyzed for. Based on this, I recommend that this site be closed. Because no letter was ever sent out to the property owner, I recommend that we just SMAC this site by memo.
